

Statement of Laboratory Director John Browne

I've been asked to share the following message with all Laboratory employees, and I would like to add to it my own appreciation for the opportunity I had to work closely with John McTague to strengthen UC management of the Laboratories. He has been very supportive of Los Alamos during his tenure and he helped us deal with key issues, including establishing a more strategic contractual relationship between UC and NNSA.

I look forward to John's continued advice and counsel through his ongoing association with the University of California system. Please join me in wishing him well at UC Santa Barbara.
